Cloud Infra Café 2.0

About the Café format

- Open discussion (as much as possible with the tools we have)

- Openly share our experience

Topics for today:

- Pressure on IT to reduce cost / optimize

- Cost vs risk balance, cost vs time/effort balance

- Cloud to on-prem

- Innovation

StorPool
DISTRIBUTED STORAGE

It is not the strongest of the species that survives, nor the most intelligent that survives. It is the one that is most adaptable to change.

-- Charles Darwin, maybe

Economic downturn/recession

- Record unemployment

- Downturn / Recession / Depression

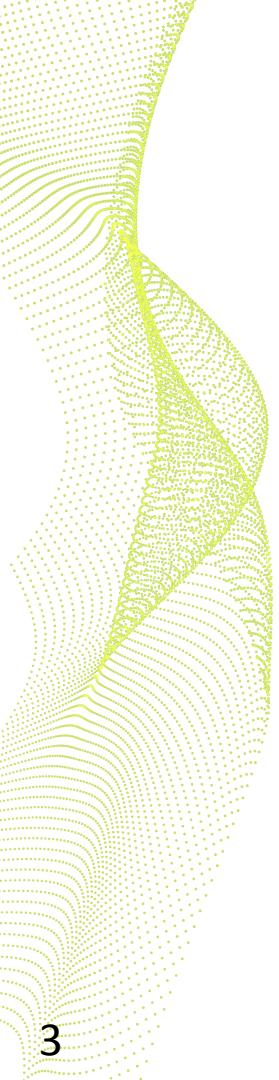

- What does it mean for us?

- How can we beat it?

4

StorPool
DISTRIBUTED STORAGE

Ideas

- Delay hardware refresh cycle
  - more brown-field projects, less green-field projects

- Physical to virtual

- Cut the fat - Anything to KVM

- Pack more VMs on the same servers

5

Ideas

- General cloud infrastructure optimization - spreadsheets

- On-prem/private cloud to public cloud or vice-versa

- Your ideas…
